

CARING FOR THE HEALTH OF KIDS & TEENS OFFICE, HOME OR SCHOOL

Children & teens experience emotional, behavioral or substance abuse issues and chronic health issues that affect their overall health and quality of life.

Caring professionals are a phone call away to assess, diagnose and treat these issues and to manage physical health care access and outcomes.

OUTPATIENT SERVICES for ages 4-20 include:

- Individual and family counseling
- Behavioral rehabilitation & life skills coaching
- Care coordination for behavioral & physical health needs
- Psychiatric evaluations
- Medication oversight by a physician
- On-site pharmacy at the Tulsa office

CALM CENTER provides immediate 24/7 crisis intervention for youth ages 10-17 and comprehensive treatment using Sanctuary tools and principles during a short stay.

WRAPAROUND TULSA provides care coordination and support for at-risk children and families, coordinates the child's mental health and physical health services, and helps create a support system for the family. A family support provider is available to call for crisis support.

TRANSITION SERVICES helps youth, ages 17-24, with behavioral health challenges to achieve independence and success by learning life and social skills.

SCHOOL SERVICES include counseling and behavioral rehabilitation to reduce suspensions, drop-outs and involvement with law enforcement.
